

Lunar Cargo

Players:

Scot: Ty Wren, Cyborg Soldier
Danielle: Tobi, G-Mod Con Artist

Location: Miguel Hidalgo Arcology, New Angeles

Steryn Maud, Ty's Loonie contact, calls, "Get to Luna."

Location: Beanstalk

Tobi gets space sick in bean pod on Beanstalk.

Location: Heinlein, Luna

Yakuza knows Tobi is on Luna and near Wyldeside.
Ty Wren was pilot with "Firehawks" squadron (pro Luna faction) in Worlds War.

Diner near Wyldeside: "Charlie's Diner." Run by Charlie. Charlie is also a Worlds War veteran. As a favor to Ty, he let them out a "secret" maintenance panel at the back of his kitchen. He serves "Luna Beer"—made from local yeasts and molds and it's not very good.

Job:

Pick up crate at Skorpios Corporation in Docklands, Luna. Take it to Starport Kaguya, and then deliver it to Erika Wilde at Beanstalk on Earth.

An **Ann model service clone** works at U-Haul in Docklands and at Starport Kaguya.

Erika Wilde has red hair and does not trust Ty Wren.
