Three of you wake up in the pool room, bodies and gear arranged, safely away from the pools. Wet tracks are everywhere. Clover is gone. Dregusk's dagger is neatly laid out by a stuffed toy horse with white polka-dots (right, Megan?). It's bright enough that if you had seen it before you would... remember it.

## Trail to the Elves:

Trail of watery clues...

### Meerclar:

A giant Tabaxi lounging in a blue place, but warm, golden light falls from an unseen sun. He languidly ignores Clover. Clover feels like napping in the warm light. Meerclar yawns. "You are in the cat heaven and safe from that dog-demon and Straasha's kin. Don't you recognize me? Meerclar, Lord of all Cats." He goes back to sleep. Meerclar says, "You are needed in the fight between good and evil. Make cat-kind proud."

### The High Elven camp:

1. sentries - PCs taken into the camp
2. Elven Lady Naivara and Ellosander standing by Clover's body on a catafalque (cat-a-falque, get it?)
3. Lady says: Our ranger, Ellosander, is disgraced. He was tasked with recovering the Dagger of Grome, but failed and brought this Tabaxi back instead.
4. That was no ordinary Water Weird you fought, but Count Sashaashtra nephew of Straasha, King of the Oceans and Water Elementals. Legend says that Zeligar imprisoned Count Sashaashtra. You will now be enemies of Straasha.
5. Lady Naivara will arrange a trade of the dagger for bringing Clover back to life. She needs the dagger for her expedition to The Lost Island to fight King Straasha. (Lady Naivara's husband, Lord Minartis, drowned at sea and Straasha is holding his soul so he cannot be raised.)
6. Dregusk trades the Dagger of Grome for Clover's life

### Meerclar:

- Clover takes Meerclar as a new patron. She feels Eltab roaring from his distant prison.
- Suddenly Clover feels pulled back...
- Meerclar says, "You may visit me seven more times before you must stay forever. Oh, to defeat Eltab you must..."
- Clover wakes up in the Elven camp.

### High Elven Camp:

- An Elven cleric raises Clover from the dead.
- Ellosander is visibly relieved and clearly likes Clover. He asks for the toy horse back.
- Lady Naivara's party is leaving for the Lost Island.
- Ellosander is disgraced and will remain in the forest.
- Clover is -4 on rolls, improves 1 step per day

PCs then return to Keep to sell loot and divide the treasure.

XP = 40
