Winter 2008 Exhibitions and Events

GAMES WORKSHOP

At the heart of Games Workshop's headquarters is Warhammer World our purpose-built hobby, gaming and visitor centre

View of the main gaming arena

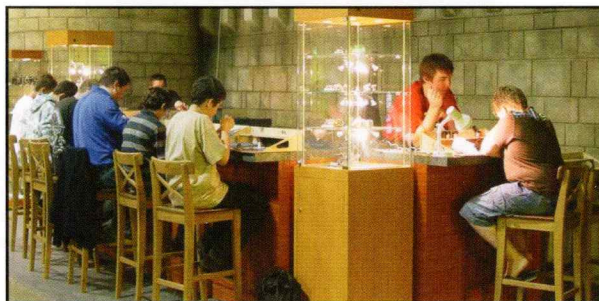

Gaming

The gaming arena lies at the heart of Warhammer World and is the venue for many annual Tournaments and Special Events. However visitors to Warhammer World are always welcome to bring along their army and settle down for a game at one of the many fantastically themed gaming tables.

Painting and Modelling

The Warhammer World Hobby Bar offers visitors a fantastic variety of modelling, painting and scenery projects. Each project lasts from one to two hours, and all of the miniatures, tools and materials you'll need to complete it are included in the cost.

Due to some of the tools and glues we use, these activities are only suitable for 12 years and older.

Art and Design

Warhammer World features regularly changing exhibitions of original artwork, pre-production models and graphics from our talented Studio team.

The exhibitions take place in the main gaming arena and in specially created display areas around the venue. In addition to the original artwork published in our books and magazines, we also have access to a great deal of unseen material such as

sketchbooks, design notes and concept drawings from artists and sculptors such as John Blanche and Jes Goodwin.
